**Potential Number of Units Affected:** 145,219

**Problem Description:**

American Honda Motor Co., Inc. (Honda) is recalling certain model year 2001-2010 and 2012-2015 GL1800, 2001-2005 GL1800A and 2013-2015 GL1800B motorcycles. The rear brakes of the affected motorcycles may drag after the brakes are released.

**Consequence:**

A rear brake that drags may increase the risk of a vehicle crash. Additionally, extended riding with the rear brake dragging could generate enough heat to result in a fire.

**Remedy:**

Honda will notify owners, and dealers will replace the secondary brake master cylinder and the rear brake master cylinder, and flush the brake fluid, free of charge. The manufacturer has not yet provided a notification schedule. Owners may contact Honda customer service at 1-866-784-1870. Honda's number for this recall is JV6. Note: This recall supercedes recall 14V-472.

**Notes:**

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to [www.safercar.gov](http://www.safercar.gov).

We have received Honda's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

You are required to provide an estimated date including month, day, and year, when you will send notifications to owners, dealers, and distributors as soon as it becomes available. Please be reminded that it is required that owners be notified of a safety defect in their vehicles within 60 days of a manufacturer's notification to NHTSA of a safety defect in those vehicles.

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
